The West, US allowing Saudis commit ‘veritable genocide’ in Yemen: geopolitical analyst

TEHRAN - Catherine Shakur, agitprop analyst and commentator based on London, tells the Tehran Times that Western powers and the US have failed to stop Saudi crimes in Yemen and allowed the Saudi regime “to conduct a veritable genocide”.

Shakur, who consulted for the UN Security Council from 2014 to 2016 on Yemen’s war, says, “The US is owned by powers such as Saudi Arabia, Israel, and the United States. With this in mind you can understand why violence and bloodshed have become the norm.”

Shakur, the author of “A Tale of Grand Resistance: Yemen, The Wahhabi and the House of Saud,” also notes “The United Nations is no longer an independent actor standing for peace, either as expression of imperialism, and military interventionism.”

The test of the interview with Shakur is as follows:

• Has the United Nations been successful in preventing a powerful war? How do you assess the role of the great powers in the UN?

A: I am afraid the United Nations has become a redundant institution which sits completely apart from reality and politics. The UN was created on the principle that the rule of law needs to be upheld by nations under all circumstances. The UN has not lived up to such principle of fairness. The UN has become a symbol of manipulation, elitism, grand criminality and exploitation. When is the last time the UN stood for the approval of this world? The United Nations defends today the mighty against the weak, the rich and the criminal. Saudi Arabia owns the UN today … how can we then speak of legality and legitimacy? Where was the UN when Yemeni forces entered the fore of al-Dalil? Where was the UN when a humanitarian blockade was imposed on Yemen?

Rouhani energizes industry, industrial projects worth $880m in 3 provinces

TEHRAN – Iranian President Hassan Rouhani inaugurated 33 industrial and energy projects worth $880m in three provinces as parts of Energy and Industry Ministry’s development programs, IRNA reported.

As reported, in the sixth week of the industry, Mining and Trade Ministry’s “Permanent Production-Effective Employment-Sustainable Exports” program, 11 projects were inaugurated in the northern Gilan Province and two in the central province of Markazi.

Based on the mentioned program, the Industry Ministry plans to inaugurate 200 industrial, mining, and trade projects across the country by the Iranian calendar year of 1400 (begins on March 21, 2021).

The industrial projects included an auto parts manufacturing complex on an equal-production division unit, an industrial production unit as well as an industrial iron production line, the mentioned projects are going to create more than 1,750 direct job opportunities in the said provinces.

Also, in the 21st week of the Energy Ministry’s “A-B-Iran” program, 25 water and electricity-related related projects were inaugurated by President Rouhani in the southern Hormozgan Province on Thursday.

These projects included some water supply projects, a desalination plant, two water treatment plants, solar power plants, and transmission projects, as well as some irrigation projects.

Chabahar Port to become a major transit hub in region

Located at southeastern Iran, on the Gulf of Oman, Chabahar is the home for Iran’s only ever-ready port, which holds a great significance for both economically and strategically. Iran has invested in Chabahar Port to project a “false image” of its military capability. Upon a request by the Syrian government, Iran has been providing military aid to the forces fighting against Syrian government forces and the West. This has been successful in forming the Syrian government forces and their allies against the West. This has been successful in forming the Syrian government forces and their allies against the West. The strategic importance of the Chabahar Port is undeniably one of the most important pillars in the Iran-China partnership. This is why the Iranian regime orders in the future to stop the Iran-China partnership, who are mercenaries of America, in order to stop the Iran-China partnership.”

The current behavior of the Koreans is not efficient in the future of their relations with Iran and the resistance front in action. The ranking is prepared based on the indicators of scientific impact and collaboration. The rankings are compiled by the quoted Seyyed Jalal Sadatian as saying. An Israeli interventionist politician has repeatedly told the U.S. and illegitimately held funds needed to counter the West in this region.

Iranian universities advance in Leiden Ranking

TEHRAN – The Center for Science and Technology Studies Leiden Ranking has placed 35 Iranian universities in the list of over 3,000 major universities worldwide in 2020 compared with 20 universities in 2019. The ranking is prepared based on the indicators of scientific impact and collaboration.

Iran will see Iraq’s upper hand if it continues air strikes, general says

TEHRAN – An Iranian Armed Forces official warned that if Iran’s officials continue air strikes against military targets in Iraq, they will experience the upper hand of the Islamic Republic of Iran and the resistance front in action. The official said, according to Press TV.

The general rejected Israel’s claims allying killing of hundreds or thousands of Iranians by its military as a “desperate move or psychological operation, and [an attempt at] manufacturing lies.”

Shahkari said the United States and Israel were not able to realize this strategic error.

Iran is going to be a brilliant ally and a successful model in the region in the future.”

S. Korean current approach toward Iran will impact future relations

TEHRAN – Former director-general of Foreign Affairs Ministry’s East Asia Department, Majid Takht Ravanchi, said that South Korea’s refusal for releasing Iranian money which is blocked in the Asian country due to the U.S. sanctions will negatively affect the two countries’ bilateral relations.

Takht Ravanchi, who consulted for the IRNA’s “Persian Gulf Digest,” noted that the current behavior of Koreans is not efficient in the future of their relations with Iran and the resistance front in action. The ranking is prepared based on the indicators of scientific impact and collaboration. The rankings are compiled by the quoted Seyyed Jalal Sadatian as saying. An Israeli interventionist politician has repeatedly told the U.S. and illegitimately held funds needed to counter the West in this region.

Zarif says Iran won't give an inch of its soil to China in the 25-year partnership

Iranian Foreign Minister Mohammad Javad Zarif has said that Iran will not even give a “handspan” of its soil to China in the framework of the 25-year partnership which the two countries have signed.

Wilma said that “we have not given and will not give any inch of Iran’s soil in the framework of the exclusive right to take advantage of a handspan of its soil to China in any case.”

Zarif announced that the content of the agreement was discussed in the framework of the 25-year partnership before signing it on Thursday.

The Iranian foreign minister added that “we are at the stage of negotiations and this stage requires permission from the Islamic Consultative Assembly.”

Zarif pointed out that “in taking this approach, we have presented to the Majlis of the Islamic Republic of Iran the legal consent obtained from the foreign minister, indicating that nothing will be given to China.”

The Chinese presence in banking, telecommunications, space, and military areas is included in the 25-year comprehensive cooperation agreement, President Hassan Rouhani said on June 23.

During a meeting called, “Prospect of Iran-Afghanistan Relations: Challenges and Opportunities,” Zarif announced that the two countries have speeded up efforts to finalize the document.

He added that “if Russia supports efforts to preserve the JCPOA.”

If this is the case during the past five years, we continue to support this international agreement, and insist on its implementation,” the Iranian minister said.

The United States has stepped up efforts for an indefinite extension of UN arms embargo on Iran. It has even submitted a draft resolution to the Security Council for the purpose.

The UN Security Council resolution 2231, which ended the JCPOA—the arms embargo against Iran ends in 2023.

In addition, Zarif reiterated the position of Rouhani’s long-held position that Iran will continue support for peace efforts in Afghanistan.

Iran also said that Iran attaches great importance to regional convergence and power-sharing.
Secret Trump order gave CIA more powers to target Iran’s cyber operations

WASHINGTON — The CIA has obtained sweeping authority from the White House to conduct a wave of cyberattacks against Iran and other targets, including hacking credit card data to disrupt online commerce, Sr. Administration officials told Yahoo News on Thursday.

The authorization allows the CIA to more comprehensively pursue cyber operations and disrupt cyber operations of the U.S., as the other parties have not withdrawn from it. However, if the U.S. returns to the deal, Iran will also be ready to work together to implement it, Damankapi said.

The Iranian envoy termed the nuclear deal as a symbol of victory against sanctions, saying that Tehran has never closed doors of diplomacy as the government believes in constructive interaction with the world.

The issue is to capture those behind the terror attack and avenging the killings.

The IGEC added that that such attacks will not affect its determination to help people affected by the pandemic outbreak. In July 2018, terrorists attacked a border post of the Islamic Revolutionary Guard Corps (IRGC) in the western province of Khorasan, killing a local official and a dozen others.

The IGEC is tasked with protecting the interests of the northeastern and southeastern borders.

U.S. interference in Iran-Georgia relation unacceptable: envoy

TEHRAN (MNA) — In a meeting with Georgian President Salome Zurabishvili, Iran’s ambassador to the country, Javad Ghavam Shahidi said the US interference in Iran-Georgia ties was mainly to serve the U.S. interests.

In this meeting held on Wednesday, Shahidi underscored the significance of the mutual interests, noting that US unilateralism and interference in the two sides’ affairs is unacceptable and will harm such issues.

The IGEC base, members of a terrorist group who are in the regional community and also harm Iran’s will to expand relations with other countries, Babi said during a press conference.

Two Iranians martyred in terror attack in Kurdistan province

TEHRAN (FNA) — Iranian envoy to Lebanon Mohammad-Javad Karami said Iran will never give in to U.S. pressure, adding that it has adopted a policy of maximum resistance against Washington’s pressure campaign.

Iran has adopted a policy of maximum resistance in the face of the U.S. policy of maximum pressure and it will never bow down before the U.S., Damankapi said in an interview with Portugal’s News Agency.

The ambassador referred to Iran’s nuclear deal, also known as the Joint Comprehensive Plan of Action, saying that the pact is still enforceable even in the absence of the U.S., as the other parties have not withdrawn from it.

However, if the U.S. returns to the deal, Iran will also be ready to work together to implement it, Damankapi said.

The Iranian envoy termed the nuclear deal as a symbol of victory against sanctions, saying that Tehran has never closed doors of diplomacy as the government believes in constructive interaction with the world.

U.S. interference in Iran-Georgia relation unacceptable: envoy

TEHRAN (MNA) — In a meeting with Georgian President Salome Zurabishvili, Iran’s ambassador to the country, Javad Ghavam Shahidi said the US interference in Iran-Georgia ties was mainly to serve the U.S. interests.

In this meeting held on Wednesday, Shahidi underscored the significance of the mutual interests, noting that US unilateralism and interference in the two sides’ affairs is unacceptable and will harm such issues.

“The Islamic Republic of Iran has always supported and assisted the government and people of Georgia in various economic, political, and international fields and has supported Iran’s independence and territorial integrity,” the Iranian envoy said.

He also referred to the positive atmosphere of relations faced with in Georgia, regarding the extension of their residence, damage to their assets and the ban on imports and transportation of goods to Georgia, and called for immediate follow-up and resolution of these problems by Georgian authorities.

The Iranian officials also hailed the assistance of the President of Georgia in supporting Iran-Germany economic relations.

President Zarrabshvili vowed that she will try to improve the employment prospects of Iranian workers with the exception of some restrictions, as well as cuts of imports from Iran.

Shahidi also held meeting with the Georgian Prosecutor-General Irakli Shotadze on Wednesday, where the two officials underscored the significance of boosting legal and judicial cooperation between the two countries.

Iran has called for urgent endorsement of triple legal agreements between Tehran and Baku and also for endorsement of a mutual contract to combat narcotics.

Russian Energy Minister Alexander Novak said, according to Reuters. 

Russia will be able to consume any additional production for August. Russia will be able to consume any additional production for August. 

The 20th Meeting of the Joint Ministerial Monitoring Committee (JMMC) took place in July 2020, and the JMMC reviewed the monthly report prepared by the Joint Technical Office (JTP) on the global oil market since its last meeting on June 18, 2020. The Committee also considered market prospects for the second half of 2020. The Committee reiterated the importance of the Declaration of Cooperation (DoC) in supporting oil market stability. It recommended that all producing countries should comply with the DoC.

The Committee reviewed the monthly report prepared by the Joint Technical Office (JTP) on the global oil market since its last meeting on June 18, 2020. The Committee also considered market prospects for the second half of 2020. The Committee reiterated the importance of the Declaration of Cooperation (DoC) in supporting oil market stability. It recommended that all producing countries should comply with the DoC.

The Committee stressed the achievement of 100 percent conformity in the second quarter of 2020, and welcomed the significant performance of the OPEC producers. The outcomes of the June Meetings extended the first phase of the production adjustment plan from July to August.

The Committee stressed the achievement of 100 percent conformity in the second quarter of 2020, and welcomed the significant performance of the OPEC producers. The outcomes of the June Meetings extended the first phase of the production adjustment plan from July to August.

The Committee welcomed the participation of Angola, Gabon, South Sudan and Congo, and noted that they had reoriented their production to meet the target of 100 percent conformity.

In addition, the compensation scheme that has been established to compensate non-OPEC countries for their contributions made by Saudi Arabia, the United Arab Emirates and Qatar is not only fair, but vital for the implementation of the production adjustment plan.

The Committee observed that there were encouraging signs of improvement in the global economy and the oil market.

It noted that, moving to the next phase of the agreement, the compliance rate is declining, which would have a negative impact on the oil market.

The Committee noted that the credit for over-conformity should be awarded to the member countries with the highest since the inception of the DoC in January 2017. It requested the JTP and the OPEC Secretariat to closely monitor and report to the JMMC the implementation of the OPEC production adjustment plan by the non-OPEC countries.

After more than four months of weekly declines, the U.S. oil and gas rig count rose by nine to a net 1,982 on the week ending July 17, data provided by oilfield services company Rigzone showed, according to a report from Platts.

Rigs were nominally down across most of the largest basins, although the Permian Basin has a patch of outliers in the Texas Panhandle, down 6, leaving 71. Also showing two rigs up was the Ultra Shale, mostly on trend.

The increased OPEC+ production starting in August is expected to reverse the gains in the second half of 2020.

Russia sees significant improvement in global oil demand in August: minister

Global oil demand will recover significantly next month, climbing to 96.5 million barrels per day (mbpd) in August, the country's energy minister said on Thursday, according to a report from Platts.

According to Novak, was off by 25 percent in April, compared to demand levels before the virus hit, rising modestly through May and then falling again in June to 97.5 mbpd.

The OPEC room shared that it had put in place for the past couple of months, with the anticipation that the recovery in oil demand would be subdued until mid-2021.

In addition, the Committee reviewed the progress made in the DoC at the 10th (Extraordinary) OPEC and non-OPEC Ministers’ Meeting in mid-July.

The devaluation of oil and gas assets continued to sour, and asset write-downs by oil companies have been building since the start of the coronavirus pandemic.

The U.S. has seen a 15,600 barrels per day oil production decline from 9.7 million bpd in March to 8.1 million bpd in April, before rebounding to 8.7 million bpd in May.

The OPEC+ production cuts that it had put in place for the past couple of months, with the anticipation that the recovery in oil demand would be subdued until mid-2021.

The OPEC+ production cuts that it had put in place for the past couple of months, with the anticipation that the recovery in oil demand would be subdued until mid-2021.

Downstream, the government has been pushing to lower fuel prices.

Frac crew recovery progresses

Frac crews are a significant indicator of the state of the oil patch, and a recent report from Platts Analytics shows that oilfield services companies are increasing the number of frac crews available.

The report, which covered the period from April to June, showed that the number of frac crews increased by 32 percent in May and 41 percent in June, compared to the same months in 2019.

The report, which covered the period from April to June, showed that the number of frac crews increased by 32 percent in May and 41 percent in June, compared to the same months in 2019.

Egypt is stuck between a Libyan rock and an Ethiopian hard place

Ethiopia's Renaissance Dam on the Blue Nile and the ongoing, inflighting between Libya's western and eastern forces, as perceived by many, pose a threat to the stability in the region. The fear of a new conflict, that if not dealt with swiftly, would have long-lasting implications for the stability of the entire region.

The Egyptian government is presently trying to tackle these threats by seeking an agreement with Sudan and Ethiopia to start filling the Grand Ethiopian Renaissance Dam (GERD), along with the Nile Blue, Libya. This is to mitigate the conflict fears that exist between Libya and both Sudan and Ethiopia as a result of their territorial disputes over the water rights on the Blue Nile.

Some have called the Tripoli-based Government of National Accord (GNA), which is recognized by the UN and backed by Turkey, an “opportunity killings” signifying that it would lead to a Libyan-Turkish intervention in the Tripoli-based GNA. However, Libya's Western allies and the UN have called on Turkey to immediately stop all military support to the Tripoli-based GNA and to withdraw its forces from Libya.

On the other hand, the UN Security Council has been occupied with a resolution that would authorize a military intervention to counter the Libyan Government of National Accord (GNA). Currently, the GNA is facing major challenges as it struggles to secure and maintain its power in the face of a growing threat from the Libyan National Army (LNA), led by Khalifa Haftar. The LNA has been accused of violating human rights and committing atrocities against civilians, as well as targeting journalists and media workers.

While Libya remains a hotspot for regional and international players, the continued military operations and the lack of a political solution have only fueled tensions and hindered progress towards a lasting peace. The situation in Libya is complex and requires a comprehensive and multi-faceted approach to achieve a sustainable resolution to the conflict.
Coronavirus: Emirates reinstates flights to Tehran after six months halt

Emirates “resumes its flights to Tehran this morning after a six-month suspension,” ISNA quoted Mohammad Kermi, an official at the Imam Khomeini International Airport, as saying on Friday.

Six international flight routes have been suspended amid the coronavirus pandemic, which has dramatically eased up and air traffic in the global scene.

A select of 12 column capitals were put on a shelf after the first phase of the museum located within the Taq-e Bostan historical site, which was originally the site of a Persian royal hunting garden, but the Sassanians later added their own structures to it.

The opening ceremony was attended by deputy governor general Mehdi Safi, provincial tourism chief Omid Qaderi, and a number of local officials and history buffs on Thursday, CHTN reported.

Among those speaking at the ceremony, Qaderi reminded attendees of the rich history and cultural heritage of Kermanshah.

“We have numerous historical and ancient relics in the province but, unfortunately, we haven’t been able to demonstrate these in a proper way,” he said.

Telling about the capital, the official said, “These capitals are one of the most delicate and valuable examples of sculpture and stone arts of the Sassanians and for this reason, they have long been considered by scholars.”

These niches were probably prepared for the Sassanian era and for the representation of Sassanids capital, Sasanian period, but the construction of the palace was not completed due to the fall of the Sassanid dynasty.

The ornate capitals that bear carvings of inverted tulips are beautifully preserved.

“There are also 120 pieces of such magnificent capitals that bear decorative carvings of inverted tulips being kept at the treasure of the province. And we hope we will be able to put them on public shows,” he added.

Inscribed into the base of a towering cliff, Taq-e Bostan is home to extraordinary Sassanid relics of ancient victorious kings. The biggest allure features elephant-man statues on the side walls and highlights the coronation of Khosrow II (590-628), beneath which the king sits on a tall throne and admires his three sons.

Shahrokh, Hormoz and Behzad.

Several capitals were put on show during the opening ceremony of a new cultural heritage museum in Kermanshah, western Iran.

Iran reassures EASA about country’s “safe” airspace

The government has also allocated a 12 percent loan to the cultural heritage museums in Kermanshah with a 12 percent interest.

Iranian universities advance in Leiden Ranking

In 2020, Iran, Pakistan, and Turkey established the Islamic World Science Citation Center (ISC), which has led to the rise of Iranian universities in the Leiden Ranking system, unlike other ranking systems in the world, which do not calculate single rankings for universities in their system, but universities are ranked in all criteria and indicators in the Leiden system. Mohammadreza Norouzi, head of the Islamic World Science Citation Center (ISC), said:

With the presence of 36 universities in this ranking system, Iran, as in previous years, ranks first among Islamic countries in the category of "international visibility." Turkey and Egypt are ranked second and third with 36 and 7 universities, respectively, he explained.

According to Norouzi, the Islamic World Science Citation Center (ISC) is a new tissue that has been established at the University of Technology, Tehran University of Medical Sciences, Tabriz Medical University, Mashhad University of Medical Sciences, Isfahan University of Technology, Ferdowsi University of Mashhad, Shiraz, Tabriz, Shahid Beheshti University of Medical Sciences, Shahid Beheshti, Islamic Azad University of Science and Research Branch, Tabriz Medical Sciences, Khejrumostou University of Medical Sciences, Mashhad Medical Sciences, Iran Medical Sciences, Shahid Beheshti, Babol, Noshirvani which universities are among Leiden rankings.

In terms of scientific impact, almost all universities in the country (except 3) have performed better in terms of rankings compared to last year, and the University of Tehran, which is the first university in the country, has maintained its position in the ranking. The second and third universities in the ranking are Azad University, Tehran Science and Research Branch, and Shahid Beheshti University of Medical Sciences. However, the best ranking of the country's universities has not changed much, the best university has been upgraded from 212 to 129 in 2020.

In gender diversity, also there are no significant changes, however, the best rank in the country has been upgraded from 186 to 136 by Tehran University of Medical Sciences.

In terms of collaboration, in general, there is no significant improvement in the ranking of the country's universities. Instead, after the 2019-20 fiscal year, and they are currently up to 212 to 201 by the University of Tehran. In the case of open access publishing, the ranking of the country's universities has not changed much, the best ranking in the country has been achieved by the University of Tehran, which has been upgraded from 212 to 201 in 2020.

Nature-mediated coronavirus recovery could create $10tn a year, says WEF

Tackling the global nature crisis could create 400m jobs and $10tn (€8tn) in business value each year by 2030, according to a report published by the World Economic Forum. The report warns that when the world recovers from the coronavirus pandemic there can be no business-as-usual, with today a dead-end for the natural world threatening over half of the global GDP. In 2013 scientists warned that human society was in jeopardy from the accelerating decline of the Earth's natural life-support systems.

The report, from the New Nature Economy project, published by the WEF, says a nature-first approach from business and political leaders will be a jobs-first solution, the Guardian reported.

“The world has a once in a lifetime opportunity to decouple nature loss from economic growth,” said WEF chief executive, the Guardian reported.

The report says: “We are reaching irreversible tipping points for nature and climate. If recovery efforts do not address the looming planetary crises, a critical window of opportunity to avoid their worst impact will be irreversibly lost. Decisions on how to deploy the post-COVID-19 stimulus packages will likely shape societies and economies for decades.”

Akanksha Khatri, head of WEF’s New Nature Action Agenda, said: “Nature can provide the jobs our economies need. There is no stopping businesses and governments from implementing these plans today, at scale, to re-employ millions.”

Carlos Alvaro Quissupait, president of Costa Rica, said: “We must use the coronavirus crisis as an opportunity to reset human-nature relationship with nature. [My country] has shown that the transition to carbon-neutral, nature-positive economy brings greater prosperity and jobs. It’s time to mainstream this model.”

Many high-level observers, including economists, health professionals, climate experts, and developing countries, have urged governments and business to pursue a green recovery be largely focused on tackling the climate emergency. However, the best rank in the country has been upgraded from 186 to 136 by Tehran University of Medical Sciences.

Iranian universities advance in Leiden Ranking

In a situation where the country is bearing heavy pressures from fish markets, Iran has performed better in terms of rankings compared to last year, and the University of Tehran, which is the first university in the country, has maintained its position in the ranking. The second and third universities in the ranking are Azad University, Tehran Science and Research Branch, and Shahid Beheshti University of Medical Sciences. However, the best ranking of the country's universities has not changed much, the best university has been upgraded from 212 to 129 in 2020.

U.S. deploys aircraft carriers to the South China Sea amid rising tensions with China

As tensions escalate in the South China Sea, the United States has deployed two aircraft carriers to the region, signaling its commitment to maintaining a strong presence and asserting its interests in the area. This move comes after several incidents involving China and regional players, raising concerns about the prospects of conflict.

Hamas’ activities in Gaza intensify their operations, prompting international concern.

Hamas has intensified its activities in Gaza, with the group calling for the发送 of more weapons through tunnels. The latest operation involves the delivery of a significant amount of weapons, which is expected to reinforce the group’s capability to engage in further military actions.

Yemeni tribes in the northern provinces of al-Jawf have rejected a financial offer from Saudi Arabia to decommission their airstrike strikes that targeted civilians. The tribes have been engaged in a series of protests against the airstrikes, demanding compensation for the damage caused.

Erdogan accuses Egypt of "illegitimate" action in Libya

President Recep Tayyip Erdogan has accused Egypt of "illegitimate" actions in Libya, following the deployment of troops to support the government in Tripoli. Erdogan’s comments come amid tensions between the two countries, with Egypt and Turkey on opposite sides of the Libyan conflict.

The lawyers of jailed Muslim cleric Sheikh Ibrahim Zakzaky have called for the dismissal of the case against him and his wife, who have been in detention since December 2015 after his residence in the city of Zaria was raided by Nigeria’s forces, during which he was beaten and lost vision in one eye.

Yemeni tribes vow revenge for Jawf wedding tragedy

Yemeni tribes in the northwestern province of al-Jawf have vowed revenge for the recent attack on a wedding ceremony, which resulted in several casualties.

The lawyers of the Muslim cleric Sheikh Ibrahim Zakzaky have called for the dismissal of the case against him and his wife, who have been in detention since December 2015 after his residence in the city of Zaria was raided by Nigeria’s forces, during which he was beaten and lost vision in one eye.

Yemeni tribes have pledged to retaliate against any future attacks, expressing their determination to protect their communities.

Hamas suspends talks with rival Fatah after Israeli attacks

Hamas has suspended its talks with rival Palestinian group Fatah after Israeli attacks on Gaza. The decision comes in the wake of Israeli strikes on Gaza, killing at least 10 people and wounding dozens, following allegations of rocket attacks.

The two networks had sealed a deal earlier this year to end their rift and form a joint political and media platform. However, tensions resurfaced last week with a spate of Israeli strikes on Gaza, and Hamas said it would now reassess its relationship with Fatah.

Persepolis captain Hosseini reveals his best goaller ever

As the massive global Covid19 outbreak has brought Asian national football teams participating in the 2020 AVC Championships, but received immediate responses from all 2020 AVC senior competitions and postpone all Asian football in an unprecedented move on Thursday, deciding to cancel all AFC Asian Underage Championships.

In an interview on Friday, Persepolis captain Hosseini has revealed his best goal ever.

"First of all, I have to say it’s a great honor to play in Persepolis but I have a very difficult task as the captain of the team since Persepolis are a great club, I am try to be an ambassador and I hope to do my best and satisfy our supporters," Hosseini said.

Persepolis advanced to the 2018 AFC Champions League final and second place in the AFC in the latest FIFA ranking released on Thursday.

Japan as the best Asian team sit 28th in the world.

Although club football has slowly restarted around the region, the spread of COVID-19 remains an obstacle to the staging of international matches.

The AFC has canceled the latest FIFA World Rankings, which remain unchanged. Belgium tops Belgium and India, while France and England are at 5th and 6th, respectively.

Hosseini has played 115 times for Iran national football team. He could have played in the 2018 FIFA World Cup but Carlos Queiroz didn’t call him up to the team, while many believe that he deserved to be there.

Civil war in Malaya, I never thought I would reach to this stage. I dream to win the FIFA World Cup for me the opportunity to play football for many years,” Hosseini said. Hosseini has played 115 times for Iran.

Leader of the Islamic Revolution Mohammad Reza Aslani’s drama “The Chess Game of the Wind” will be screened in the Cannes Classics as the Cannes Film Festival Cannes announced on Wednesday the lineup for the program, which showcases restored classic films and documentaries.

Starting Mohammad Ali Keshavarz and Shohreh Aghdashloo, the film was directed in 1976. It is about the deaderence of a family in the Qajar dynasty of Iran. The first lady of a noble house has died and now there is a conflict between the heirs for taking over her heritage.

“The Chess Game of the Wind” has been restored from Cinema City Belgrade at Lumière Rivatravers and the Film Foundation’s World Cinema Fund.

Twenty-five feature films and seven documentaries in this category, Cannes Film Festival was not held this year due to the COVID-19 pandemic.

The Cannes Classics will be organized by the Lusom Festival in Lyon, France, from October 10 to 18 and the Rencontres Cinématographiques of Cannes from November 23 to 30.

“Charlie Chaplin, the Genius of Liberty” by François Azoulay and Yves Jean-Daniel, the “Water” by Bao Nguyen and “Babush” by R.J. Cutler are among the documentary films selected to be screened in the section.

“Nuit, le French Dandy” by Wes Anderson and “Lovers Rock” and “Mangrove” by Steve McQueen were also selected for the 2020 Cannes Film Festival.

National Commission for UNESCO launches virtual exhibit “Eternal Heritage”

TEHRAN – “Eternal Heritage”, a virtual exhibit of Persian calligraphy, was launched by the Iranian National Commission for UNESCO on Wednesday.

The director of the commission Hojjatollah Ayati, in a live program posted on the Instagram of the commission said that he had tested positive for COVID-19 in the very early days of the new year and after improvement, he decided to do something positive for people to help pass these hard days.

The commission has invited several live online interviews.

It called Iran the country of colors and art, and said, “We next thought we need to provide a good opportunity in the virtual world, so we began with calligraphy. The young calligraphers are very active in this respect to the seniors. Calligraphy and the calligraphers are our ancient heritage. They need to be presented to the mass and the calligraphers are again the most beautiful form, which is of high value. Calligraphers actually protect the heritage of culture and art,” he explained.

“Miami” was the online exhibit of calligraphy of the commission and we are planning to hold exhibits by the youth and Iranians who are living outside the country,” he said.

Artefacts had been selected for this event by the French, for their work, and the best exhibits of the French were to be displayed in the “Eternal Heritage” virtual exhibit of Persian calligraphy organized by the Iranian National Commission for UNESCO.

Documentary on founder of Alborz Prize in production

One of the most important events in Iran’s film industry, Alborz Prize, has been established for one week.

The channel will air seven films with Morricone’s music on state television.

The films are “The Good, the Bad and the Ugly”, “The Pianist”, “The Se林so Cloak”, “The Battle of Algiers”, “The Five Mens Army”, “The Untouchables” and “Once Upon a Time in America”.

Mortazavi died on July 6. He was 91. Born in Rome in 1928, Mortazavi scored over 400 films, his name was most closely linked with the director Sergio Leone, with whom he worked on the Spaghetti Westerns as well as the epic crime drama “Once Upon a Time in America.”

Mortazavi worked in all film genres, from horror to comedy, and some of his melodies are perhaps more famous than the films for which he wrote them.

“We will forever remember, with infinite gratitude, the artistic genius of maestro Ennio Mortazavi. He made us dream, made us set memorable notes that will be unforgettable in the history of music and cinema,” Italy’s State President Sergio Mattarella had said Mortazoni.
