Iran arrests head of U.S.-based terror group

TEHRAN—The head of Iran’s Trade Promotion Organization (TPO) has resigned amid growing public criticism of the government’s economic policies.

Iranian President Hassan Rouhani and his government have been under increasing criticism for their handling of the economy, which has been hit by US sanctions imposed after the US withdrew from the 2015 nuclear deal.

TPO director-General Mojtaba Shabani was confirmed in his position by Rouhani on Wednesday, but his decision to step down comes after the government announced plans to cut fuel subsidies and increase prices on goods like food and clothing.

The move was widely seen as a bid to address public concerns over rising prices and shortages.

Shabani said he had been informed of the government’s decision to cut subsidies on fuel and that it was a matter of “national security”.

However, his resignation comes just days after the government announced plans tospeed up the implementation of the new fuel pricing system, which is expected to come into effect within weeks.

The new system, which will see prices on gasoline rise by 50%, has been met with widespread criticism and protests across the country.

In a statement, Rouhani said he had “full confidence in the ability of the TPO to continue to work in the best interests of the country.”

He added that the government was committed to ensuring that the new fuel pricing system was implemented in a transparent and fair manner.

TPO to develop technical-engineering services export to Syria

TEHRAN—The head of Iran’s Trade Promotion Organization (TPO) said that his organization is in the process of developing technical-engineering services for Syria.

In a statement, TPO director-General Mojtaba Shabani said that the government is focusing on developing a database of technical-engineering services that can be exported to Middle Eastern countries.

He added that the TPO was working with Syrian authorities to develop a similar database for Iran.

Shabani said that the TPO was also in talks with other countries in the region to develop similar databases.

“Government Branches; Using the Region’s Potential to Be Represented in Afghanistan Bahador Aminian says that Iranian music has a great potential to be represented in Afghanistan. Music is a universal language that transcends borders and cultures.”

Khosro Sinai, director of acclaimed Iranian drama “Bride of Fire” and several documentary films, succumbed to Covid-19 on June 27, after a period of hospitalization.

The City of Portland has seen 65 consecutive days of protests, which started in late May. Local and federal officials have agreed to work together to withdraw law enforcement officials after local police completed a cleanup of “anarchists and agitators.”

The violence has spread across the country, with some protests turning violent and resulting in clashes between protesters and police.

Meanwhile, the withdrawal of federal agents from Portland has meant a gradual return to normalcy, with many businesses reopening and people returning to work.

Ex-trade minister enumerates 10 ways to counter sanctions

By Amir Mohammad Esmaeili

TEHRAN—An American scholar based in Moscow believes that the comprehensive-strategic partnership between Iran and China will be “mutually beneficial”.

“The United States has never been able to successfully compete with the shared interests and potential of the US-China partnership, especially in the field of science and technology,” said Amir Mohammad Esmaeili.

Esmaeili’s remarks come in light of the US-China trade war, which has put pressure on both economies, and as Iran and China are looking to strengthen their ties in various sectors.

“Both countries have a long history of cooperation and their economic strategies complement each other,” he said.

On the economic front, Esmaeili believes that the US and China have a lot to gain from working together, especially in areas such as telecommunications, energy, and agriculture.

China-Iran agreement is mutually beneficial: scholar

TEHRAN–An American scholar based in Moscow believes that the comprehensive-strategic partnership between Iran and China will be “mutually beneficial.”

“There are many reasons to see this as a very positive development that will be mutually beneficial for Iran and China. Therefore, both countries complement one another by helping their partner achieve some of their grand strategic goals, investment for Iran and revitalizing BRI for China,” Andrew Kuu-Ko, a member of the expert council for the Institute of Strategic Studies and Predictions at the People’s Friendship University of Russia, told Tehran Times.

Koo-Ko says the 25-year partnership “will fend off challenges U.S. hegemony even if the intentions behind their partnership isn’t explicitly tied to that and is only officially about improving bilateral relations.”

Iranian music has great potential for growth in Afghanistan: envoy

TEHRAN–Ambassador to Afghanistan Bahadar Aminian says that Iranian music has a great potential to be represented in Afghanistan. Music is a universal language that transcends borders and cultures.

Aminian, who is in his meeting with the Ruud Foundation Managing Director Mohit Alavi, the foundation announced in a press release published on Friday.

“Music has a good potential to be represented in Afghanistan, while the country can also host performances by top Iranian musicians. Many Iranian musicians have been warmly received by art aficionados and elites of the country,” he said.

MBS may resorb to bloody game to eliminate rivals after death of father: Saudi activist

By Murti Al-Sabri

In 2015 the Saudi regime created an alliance of mercury nations to target was on Iran. When, in the years which followed, there has been a profound collapse of the country’s institutions, key figures such as the interior minister, senior ministers, and senior politicians, have been sanctioned by the US, and many have fled the country.

In 2021, the country’s political landscape is one of deep uncertainty and divisions, with the government facing growing pressure from the popular movement, the protests, and the ongoing conflict in Yemen.

The Saudi regime has been accused of using violence and repression to suppress dissent, and of carrying out a campaign of mass arrests and torture.

During a meeting between Syrian Prime Minister Hussein Arnous and an Iranian delegation at the Imam Ali International Airport in Damascus on June 17, the two sides explored the ways to further deepen cooperation between Iran and Syria which have been targeted by the US sanctions.

Iran-Syria economic collaboration still vital, the government of the leaders of the two countries, Arnous said in the meeting.

International daily

TEHRAN — The 50th anniversary of the Islamic Revolution is a time for reflection and recommitment to the ideals of the revolution, said the Iranian government.

Prime Minister Mohammad Javad Zarif said in a statement that the revolution was a “watershed moment in Iran’s history” and that its achievements have been “monumental.”

Zarif said that the revolution had brought about “a new era of independence and self-sufficiency” for Iran, and that it had “put an end to the era of foreign domination and interference.”

He also said that the revolution had brought about “a new era of social justice and equality” for Iranians, and that it had “put an end to the era of gender discrimination.”

The government has been criticized by some Western countries for its human rights record, with allegations of arbitrary arrest and detention, torture, and execution of prisoners.

However, Zarif said that the government was committed to respecting the rights of all Iranians, and that it was working to improve the country’s human rights record.

He also said that the government was committed to ensuring that Iran’s economy was on a sustainable path, and that it was working to increase investment and create jobs.

Rouhani felicitates Swiss on National Day

Rouhani (MINA) – Iranian President Hassan Rouhani congratulated the National Day of Swiss to his counterpart Simonetta Sommaruga.

In a message on Saturday to the President of the Swiss Confederation, Simonetta Sommaruga, Rouhani congratulated the event, hoping for expansion of bilateral relations between the two countries in all fields.

"I cordially congratulate National Day of Swiss to you, the government and the people," he said.

"I believe that by taking advantage of the diverse capacities of cooperation within the framework of the roadmap for relations, the friendly and historical relations between the two countries will expand even more," added Rouhani.

Iran arrests head of U.S.-based terror group

TEHRAN (MINA) – Iran’s intelligence forces have arrested the ringleader of a terrorist group called “Tondar”. The surveillance of the unknown soldiers of Imam Zaman (Iranian intelligence forces) on a terrorist group based in the U.S. has led to the arrest of this terrorist group’s ringleader, INSA reported on Saturday.

The IRIB news reported that the ring leader, Jashirmad Shahr- mad, who headed an armed cell of sabotage in Iran, is now in custody of Iran’s intelligence forces.

According to the report, Shahr- mad was behind the poisoning of a senior oil engineer in Sistan and Baluchistan province.

In recent years, Tondar group has been planning to carry out a number of big terrorist operation in Iran, it added.

Ex-trade minister enumerates 10 ways to counter sanctions

"To counter the U.S. sanctions, we should use resources that the U.S. cannot control or exert force to restrict Iran’s access to them," Al-Ahmad added. who was trade minister in the Akhter Hashemi Rafsanjani administration.

He also said that the U.S. should "properly" and "unilaterally" quit the nuclear deal in May 2019 and introduced the harshest ever sanctions in history on Iran as his ministry of administration’s “maximum pressure” strategy against Iran.

The Trump administration has also stepped up calls for the extension of US arms embargoes on Iran. The administration has repeatedly said that the President is determined to extend the arms embargo that was imposed under the Iran-Iran Nuclear Agreement (P5+1) and which expired in October 2020. The US Treasury Department has already threatened that it may seek to trigger a snapback of sanctions on Iran if the arms embargo is not extended.

Under the JCPOA, the United Nations Security Council (UNSC) passed Resolution 2231, which endorsed the 2015 nuclear deal. The resolution lifted its arms embargo on Iran five years after the implementation of the agreement. If the US government abandons the JCPOA, it is expected that some UN members may challenge every American presence in the region.

Rouhani felicitates Swiss on National Day

More than the problems in the Middle East, they are more preoccupied with the Asian rumbling countries in the region sense that America is the main actor involved in the Middle East. This is why concerns of the region towards the U.S. dominance and the U.S. influence in the region will turn into a governmental program with their “extremely important” cooperation with the Middle East.

"I believe that by taking advantage of the diverse capacities of cooperation within the framework of the roadmap for relations, the friendly and historical relations between the two countries will expand even more," added Rouhani.

Two border guards killed in clashes with terrorists in Sardasht

TEHRAN (FNAH) – Two Iranian border guards were killed in clashes with berserk terrorist in Sardasht region in West Azerbaijan Province in Northwestern part of the country.

"The Iranian border guards clashed with an armed group in the border regions of Sardasht County, during which two guards were killed, one of whom died after several hours of wounds," General Mohsen Heidari, the commander of the Ghoragh Shahr Police, said late on Friday.

He noted that the wounded guards are currently in good condition.

On Monday, two other border guards were killed in a clash with 20 terrorists in Sardasht on the border with the Iraqi Kurdistan region. West Azerbaijan province shares 86 kilometers of border with Turkey and Azerbaijan.
**Value of trades in Iranian stock market climbs 625% in 4 months yr/yr**

**TEHRAN** – The value of trades in Iranian stock market has risen 625 percent during the first four months of the current year (March 20-July 23), compared to the same period in the past year. The records were set in the country’s capital city of Tehran. According to the loose and partial report of the nation’s largest stock exchange, the Iran Stock Exchange (TSE), in 4 months, Iran’s capital market has witnessed a significant increase in the value of trades compared to the same period of the previous year. The report noted that the total volume of trades has increased by 294 percent, and the market capitalization has risen 305 percent. Meanwhile, the number of real estate deals has risen 195 percent in Tehran in comparison with the same period of the previous year.

The official also noted that the high amount of liquidity that is entering Tehran’s stock exchange market is beneficial for this market, as it’s being developed and financed, for the betterment of the capital market. Tehran’s stock market is witnessing an increase in its liquidity, and the supply side is not experiencing any decline due to the coronavirus pandemic.

We have been seeing new records continuously posted by the TSEPK, the main index of TSE, since the year started. It’s expected that the security market is ideal for investors, who are seeking to make investment in this market. There is a high demand in the market, he underlined.

**4 provinces to be connected to national rail network by Mar. 2021**

**TEHRAN** – Deputy Transport and Urban Development Minister Ali-Ahmad Ghaffari said on Saturday that 4 provinces of Iran operate new railway tracks to connect the provinces to the national railway network by the end of the current fiscal year (March 21).

"To increase the share of freight, passenger and transit transportation through railway, the Ministry of Transport and Urban Development has put a special program on the agenda for the current year, which aims, by connecting at least four provinces of Iran to the national railway network by the end of Mar. 2021 and the record high of 1.9 million points on July 20," the official said.

According to the official, construction of 1,614 kilometers of railway lines has been completed and equipped with modern irrigation systems. He also added that the government, the implementation of this plan for irrigation systems development, the current year, 952,000 hectares of farmlands are farmed through drip irrigation systems, of which 29,000 hectares have been equipped and 91,000 hectares are under operation.

As reported by ILIA, Zare noted that the Agriculture Ministry’s plan for the development of modern irrigation systems has been defined in-line with the resilient requirements of our country and the need for building a self-reliant foundation on the country’s food security and self-sufficiency.

So far, more than 2.4 million hectares of farmlands of the country have been equipped with modern irrigation systems.

With the effective support of the Agricultural Ministry and the Transport Ministry, this project has, so far, helped reducing the water consumptions in the equipped lands by 20 percent, and the production by 30 percent, Zare noted.

**Housing price rises 10% in Tehran**

The head of Tehran Stock Exchange (TSE) had previously announced that the exchange was due to be established in the middle of the previous Iranian calendar month (early July).

In late June, Finance and Economic Affairs Minister Farhad Dasdani announced the establishment of the capital market’s real estate exchange.

The minister had stated that the Economy Ministry was finalizing the issue with the Securities and Exchange Organization (SEO).

Last week, a member of Iran’s Securities and Exchange Committee said that the country is going to establish a real estate exchange by the next four-six months. He noted that the mentioned exchange has been discussed for five years and put the exchange on the list of projects for settlement in March 2021.

The establishment of such an exchange is in line with the government’s policy of providing housing for the underprivileged, and efforts have been made already to prepare the legal and technical groundwork. The Tehran Stock Exchange (TSE) had previously announced that the real estate exchange was going to be an opportunity for making the real estate market more transparent, and will gain people’s trust for participation in this important sector.

In early July, speaking in a meeting with officials from Iran Stocks and Exchange Exchange (ISE), Wilfah said: "The real estate exchange is going to offer an opportunity for people to purchase and sell real estate, as well as, increase the transparency in the market.

The official noted that the Real Estate Exchange Company is going to be established with an initial capital of $10 million, which will be provided by the government, and another 25 percent is going to be privatized.

In a report, The Tehran Stock Exchange announced that the exchange was due to be established in the middle of the previous Iranian calendar month (early July).

When established, it will be the country’s fifth major exchange for economic relations with Iran, and the two sides could take advantage of this opportunity according to Wilfah.

He further mentioned some of the joint chamber’s plans for increasing trade between the two countries including holding an exhibition of Iran’s capabilities in Syria in near future, increasing the exchange of goods, organizing exhibitions, and the establishment of an Iranian-Syrian chamber.

Kashefi also called for the launch of a credit line with Syria to facilitate financial transactions, and noted that necessary measures have been already taken towards this aim.

"We also need the cooperation of the two central banks for this purpose," he added.

**TPO determined to facilitate technical-engineering services exports to Syria**

**TEHRAN** – TPO determined to facilitate technical-engineering services exports to Syria.

Syria has a comprehensive plan to develop the country’s economy and has set goals to increase the stability of the Syrian people in the coming years, according to Syria’s Minister of Economy and Cooperative Affairs. Head of Departments for Developing Irans Trade with Syria, Reza Arab-Mohammadi, has praised Iran-Syria relations in a meeting held for his part, reiterated that his country is standing alongside Syria in all economic sanctions.

"The Syriac delegation trip to Damascus took place to offer economic help, especially the aid for rehabilitation of damages in Syria due to the war, said by his part, which is necessary for the return of the conditions and the return of the war victims to their countries.

Head of Iran-Syria Joint Chamber of Commerce, Industries, Mines, and Agriculture (ICCIMA) said the value of Iran’s trade with Syria will reach $1.8 billion by the next Iranian calendar year 1401 (starts on March 21, 2023).

"According to the plans we have on the agenda for expanding trade with Syria, the value of trade through 2021 is expected to reach up to $1 billion by the next year," he said. The port of Iran Chamber of Commerce, Industries, Mines and Agriculture (ICCIMA) is one of the cite examples which have been presented in this regard.

Expansion of economic ties discussed between Iran, Georgia

The meeting between Iran Ambassadors to Georgia Qassem Sulaimani and the Georgian Minister of Economic and Sustainable Development Natia Turnava, the two sides expressed desire for the expansion of Iran-Georgia economic relations. During the meeting, the Iranian ambassador stressed the need for increasing the volume of goods and services exchanged between the two countries before the coronavi-
As a frame-of-reference for the U.S. presidential election, and the key role the energy industry will play when voters go to the polls on Nov. 3, President Donald Trump’s speech in Texas was Texas through and through.

You have to give it to him for theatrical pizzazz. In the heart of the Texas shale industry, he stood in front of a pile of oil barrels draped in American and Texan flags, the entire energy world at his feet and on the stage, the kind of performance he can deliver with just a hint of control.

“We were very close to losing a very powerful, great industrial power,” he said, referencing a phrase often used in Texas and elsewhere to keep expanding.

The problem he faces is that by any conventional measure, he has lost the dominance it attained last year as the world’s top oil producer by some 5.4 million barrels per day on Black Monday, April 20, whole swathes of the U.S. economy shut down for the first time since the Great Depression, and the world’s oil output bottomed out at 9.7 million barrels per day.

Coronavirus gives kiss of death to once flourishing medical tourism in Mashhad

Tourism TEHRAN — While the developing health tourism industry, which is one of the most important factors of Mashhad’s travel sector, was trying to expand its capabilities and capacities in attracting medical and health tourists because of the medical purposes by 95 percent over the past few months, IRNA reported on Saturday.

Iran is one of the major destinations for health tourism in the region, especially for medical services, mostly from neighboring countries including Iraq, Kuwait, Bahrain, Qatar, Oman, Turkey, Afghanistan, Tadjikistan, and Turkmenistan are seeking to use Iran’s services. The industry which is one of the medical purposes made 70,000 foreign patients in Mashhad and has dwindled to zero.

But according to the managers of some of these hospitals, the number of health tourists visiting those centers has dwindled to zero. According to reports, nearly 70,000 foreign patients from the Persian Gulf countries, and even across the globe to visit the imposing, modern hospitals, and the rest are medical centers and hospitals in Mashhad in the current situation so passengers with high temperatures will be guided to the airport city’s designated medical centers by almost all of its visitors. The city is full of mudbrick houses that are equipped with solar panels, washing machines, and electric ranges. People living in the vast stained-glass windows. Even in the afternoon, it’s still a very cool place to stay, or a “don’t miss” destination for anyone traveling to Iran. Young people) come in droves to pose for selfies and even locals come to check out the very cool place to stay, or a “don’t miss” destination for anyone traveling to Iran.

IKIA requires negative coronavirus test for passengers

Tourism TEHRAN — Airlines operating international flights from Iran have been required to have passengers undergo COVID-19 PCR test at a certain airport before boarding their flights to the Imam Khomeini international Airport. The test results must be certified by Iranian Ministério da Saúde (Ministry of Health) and be submitted to the airline before boarding their flights. If the test results are not certified, the passenger will not be allowed to board the flight.

The new requirements are necessary due to the high rate of COVID-19 cases in Iran and the high rate of deaths from the virus. The Iranian government has been trying to control the spread of the virus in order to prevent it from spreading to other countries.

Bamou National Park, a paradise for wildlife watchers

Tourism TEHRAN — Located on a high peak reaching 7,908 meters, Bamou National Park is Spain’s largest wildlife reserve. It is located in the Atlas Mountains and ranges extending parallel from the slopes of the Atlas mountains on the north to the high mountains on the south. The park is known for its diversity of plant species, including numerous rare and endangered plant species.

The park is home to numerous species of birds, including the famous ivory-billed woodpecker, which is the only species of its kind found in the United States. The park is also home to numerous species of mammals, including the rare mountain lion. The park is known for its high biodiversity and its efforts to protect the environment.

The park is under the management of the National Parks and Wildlife Service of Spain, which is responsible for the protection and management of the park. The park is open to the public for visitors who are interested in observing the diverse wildlife and natural beauty of the area.
The lack of human activity during lockdown caused human-linked vibrations in the Earth to drop by an average of 50% between March and May 2020.

Over 388 tons of narcotics were seized in 4 months. The Iranian police and the UNODC have focused on narcotics trafficking during the last year, and during weekends and overnight. Howev-

The paper is published in Science. Measured by instruments called seismometers, seismic noise is caused by human activities, within the Earth, which travel like waves. The waves can be triggered by earthquakes, volcanic eruptions, and man-made events such as travel and industry. Although this reduction is significant, the drop in human-caused seismic noise is unprecedented. This change is expected to impact seismologists who study earthquakes by observing how seismic waves are affected during lockdown.

COVID-19 lockdown caused 50% global reduction in human-linked earth vibrations

The greenhouse established in Semnan Settlement by WFP and FAO’s still operational with precautionary measures to avoid the transmission of COVID-19. Refugees managed to harvest and sell the crops to provide a source of income for their families, WFP tweeted on July 26.

According to official government statistics, Iran currently hosts 953,442 refugees, 97 percent of whom live in urban areas, and the Iranian government will resettle 5,000 refugees in 20 settlements running under UNHCR’s main government counterpart, the Interior Ministry’s Office for Citizens and Foreign Immigrants.

A workshop will be held for 15 selected refugees interested in farming, to provide them with the necessary skills to grow a variety of ornamental and edible plants in these greenhouses. Training and rehabilitation programs are also planned to help people make a living without relying on the drug trade.

According to UNODC, Iran remains one of the major centers of drug production and drug trafficking on the occasion of International Day Against Drug Abuse and Illicit Trafficking.

PMU official: U.S. only concerned about looting Iraqi oil

An official from Iraq's Popular Mobilization Forces or Hashd al-Shaabi has warned that the U.S. might only seek to loot the country’s oil, a move that could potentially shake the Iraqi government.

"The Iraqi state and the Popular Mobilization Forces will not tolerate any attempts to loot the country's oil," the official said.

The U.S. has previously threatened to leave the country if its demands are not met, and the official said that such a move could have serious implications for the region.

In a separate development, the Emirates Nuclear Energy Corporation (ENEC) has signed an agreement with the Barakah Nuclear Energy Plant (BNPP) in the UAE to begin work on a nuclear energy project.

"This is a significant step in the UAE's efforts to diversify its energy mix and transition to cleaner sources of power," said a statement from ENEC.

The project, which will be the first nuclear power plant in the UAE, is expected to begin operations in 2023.

UAE starts operations at Arab world’s first nuclear power plant

In a first for the Arab world, the United Arab Emirates (UAE) has begun start-up operations in the initial unit of its first nuclear power plant.

"The UAE has made significant progress in its nuclear energy program," said Mohamed bin Zayed Al Nahyan, Crown Prince of Abu Dhabi and Deputy Supreme Commander of the UAE Armed Forces.

The plant, which is located in the Al-Dhafra region of Abu Dhabi, is expected to begin commercial operations in late 2023.

"This is a major milestone in our efforts to diversify our energy mix and transition to cleaner sources of power," said Al Nahyan.

The UAE has been working on its nuclear energy program for several years and has signed agreements with international partners to build the plant.

U.S. cannot disarm Lebanon’s Hezbollah through sanctions: Russian ambassador to Beirut

If terrorism prevails in Syria, it will be bountiful for those who anticipate it to cross into Lebanon, and this would lead to the partitioning of the country.

"We must work on the political track in order to return to the Syrian identity as a region," said the Russian ambassador.

"This is crucial in order to pave the way for a political solution in the region," he added.

The ambassador also highlighted the importance of working with other countries in the region to achieve peace and stability.

"We must continue to work with all stakeholders to achieve a solution that is acceptable to all parties," he said.

In a related development, the Lebanese government has announced a key change in electoral law that will affect the way elections are held in the country.

"We are moving towards a more proportional system that will ensure a fair representation of all regions," said Prime Minister Mustafa Al Kadhimi.

The new law, which was passed by parliament, will allow for a more inclusive representation of all political groups and will help to prevent the concentration of power in the hands of a few.

"This is a major step forward in ensuring a more democratic and inclusive political system," said Al Kadhimi.

The变更 was welcomed by opposition groups and civil society organizations, who said that it would help to promote a more transparent and accountable political system in Lebanon.
Calderon declines to attend Persepolis's title celebration

Iranian international striker Astor Villa could sign this summer

Aston Villa are a team in need of - and with lessons to give to - young, eager, up-and-coming clubs. They are a team with a certain kind of dynamism in their history, a team with a style that has always been admired, a team with a certain kind of flair and a certain kind of audacity.
