Iran national football team showed a promising performance against Syria in a friendly match held in Tehran on Tuesday as part of preparation for the 2022 World Cup qualifiers.

By equipping itself with players and ideas, the team had already shown that under new coach Reza Madadi, it is not only capable of progressing in world football but also that it has a bright future.

The team's performances in its two previous qualifiers against Syria and Jordan, which ended in a draw, showed that Iran can use its tactical knowledge to confuse its opponents.

The team's next friendly match will be against Qatar on April 27, which is crucial for qualification for the World Cup.

The team's coach, Reza Madadi, said that the team will focus on defensive tactics in the coming matches.

Iran, China, Russia, France, German Foreign Minister Heiko Maas visited Washington on Friday and talked with Secretary of State Antony Blinken about the JCPOA, and said one of the basic tenets of the JCPOA is that Iran's nuclear activities would not be used for military purposes, the official said.

Maas said that the JCPOA includes a comprehensive nuclear deal that includes Iran's non-nuclear activities in relation to the nuclear deal.

He added that the JCPOA would not be renegotiated, but would be implemented by the sides concerned.

In line with the joint presidential statement of the JCPOA leaders, the United States and Iran have been working to preserve the JCPOA and avoid its termination.

In late January, Iran hosted the political leaders of the JCPOA partners in a meeting that Tehran's own help as a mediator in a peace talks with the United States and the Trump administration.

Iranian Foreign Minister Mohammad Javad Zarif said on Monday that certain aspects of the nuclear deal were being renegotiated in talks with the United States and other JCPOA partners, adding that the talks were aimed at preserving the JCPOA's core provisions.

Iranian Foreign Ministry spokesman also said on Thursday that Iran's officials had met with the United States and other JCPOA partners in talks aimed at preserving the JCPOA's core provisions.

The talks were held in Vienna, Austria, and were attended by representatives of Iran, the United States, and other JCPOA partners.

The JCPOA is a nuclear agreement between Iran and six major world powers, including the United States, that aims to prevent Iran from developing nuclear weapons.

The JCPOA was reached in 2015 and marked a significant achievement in international nuclear diplomacy.

Since the United States withdrew from the JCPOA in 2018, Iran has gradually reduced its compliance with the accord.

The United States has imposed sanctions on Iran in response to its nuclear activities.

The JCPOA's future is uncertain, with Iran and the United States at odds over the accord's terms and enforcement.

The JCPOA's failure could have serious implications for global nuclear Non-Proliferation Treaty (NPT) commitments.

On Tuesday, Iran's ambassador to the United Nations, Masoud Adib, said that Iran remained committed to the JCPOA and emphasized the importance of maintaining the deal.

On the same day, the United States announced new sanctions against Iran, including those aimed at Iran's defense sector.

The United States has also imposed sanctions on Iran's Supreme Leader, Ayatollah Ali Khamenei, and several of his close associates.

Iranian Foreign Ministry spokesperson said on Tuesday that Iran was committed to the JCPOA and would continue to fulfill its obligations.

The JCPOA's fate is uncertain, with Iran and the United States at odds over the accord's terms and enforcement.

Iran-China cooperation raises concern in the West

**President**

The Chinese-Iran cooperation plan was warmly welcomed by the Iranian Ministry of Foreign Affairs, who stated that the plan was a "strategic choice". However, the move has raised concern in the West. A recent speech delivered on the occasion of the Comprehensive Plan of Action (JCPOA) in Iran's capital, Tehran, by Seyed Ali Khamenei has outlined Iran's stance on the JCPOA and its willingness to cooperate with China. The statement said, "We believe this document will further contribute to the JCPOA and strengthen cooperation with China."

**President**

The U.S. Department of State welcomed the Chinese-Iran cooperation plan, saying that it will be among the most pressing topics of discussion at the JCPOA talks. "The U.S. Department of State welcomed the Chinese-Iran cooperation plan," said Price. "It is an opportunity to exchange views on possible options of U.S. return to the JCPOA."

**President**

In a recent speech, the Iranian Foreign Minister, Mohammad Javad Zarif, described the Chinese-Iran cooperation plan as a "strategic choice". He said that the move is necessary to translate the JCPOA into practical steps, and that it will be among the most pressing topics of discussion at the JCPOA talks.

**President**

Biden said a few hours after the plan was signed that it is necessary to translate the JCPOA into practical steps. "I want to thank President Xi Jinping and his administration for their support of the JCPOA," said Biden. "This is a win-win agreement for the region and the world."

**President**

The U.S. said the ball is in Iran's court, and that Iran needs to make the Americans understand that Iran is willing to cooperate with China. "The U.S. said the ball is in Iran's court, and that Iran needs to make the Americans understand that Iran is willing to cooperate with China," said Price. "The U.S. said the ball is in Iran's court, and that Iran needs to make the Americans understand that Iran is willing to cooperate with China."
The economies of all countries, especially developing countries, have severely damaged, and Iran is one of the countries that has been affected. As a result, to U.S. sanctions against the country, he said: “Despite the sanctions imposed by the United States, Iran has been able to overcome the pressures of the sanctions, and the economy of the region.

As announced by the ministry, the issuance of permits for setting up industrial units in the country increased 16 percent in 398.

Most of the issued permits were related to the food industries; and Semnan, Qom, and Khorasan Razavi were the provinces registering the highest number of permits. According to Alghasheh Mosalheh, the acting head of Iran Small Industries and Cottage Industries Development Organization (DISICO), preventing the inactive status of the industrial units is a major plan among the main projects inaugurated by the president in an online ceremony on the occasion of the National Industrialization Day. And, “Iran’s development and industrial growth in this year are the main concern of the government, and also the insecurity regimes and rules and regulations.

The value of Iran’s non-oil imports in the first half of the year was 8.9 billion dollars, and the second one was Qeshm Free Trade Zone established the year after on Qeshm Island in the Strait of Hormuz. Some five other free trade zones have been created jobs for 5,400 persons.

The SCI has announced that the inflation rate has risen 0.6 percent in the country’s rural areas in the last month.

The center put the inflation rate at 47.8 percent in the urban regions in the last month. It has also announced that the inflation rate has fallen 0.3 percent in the country’s rural areas in the mentioned period, indicating an increase of seven percent compared to the same period of 397.

According to the head of Iran’s Islamic Republic of Iran Customs Administration (IRICA), the value of Iran’s non-oil trade stood at $73.5 billion in the past year. As announced by the ministry, about 1.1 million permits have been issued for establishing Iran’s domestic production and non-oil exports. Dependence on the oil income while elevating the country’s economic activities, they could not have been provided with the stable drinking water in the rural regions. Each year, averagely about 1.1 million people (34 villages each week) have been supplied with the stable drinking water in the rural regions.

The SCI has put the inflation rate at 36.4 percent, rising 2.2 percent from the figure stood at 34.2 percent in the eleven month of that year. The SCI has announced that the inflation rate has risen 0.1 percent in the country’s urban areas in the last month of the year. The SCI has put the inflation rate at 47.8 percent in the urban regions in the last month. It has also announced that the inflation rate has fallen 0.3 percent in the country’s rural areas in the mentioned period, indicating an increase of seven percent compared to the same period of 397.

The SCI has put the inflation rate at 36.7 percent in the urban areas of Tehran province in the last month of the past Iranian calendar year (ended on March 20), during which the inflation rate stood at 34.8 percent in the rural regions of the province.

The SCI has put the inflation rate at 36.4 percent, rising 2.2 percent from the figure stood at 34.2 percent in the eleven month of that year. Moreover, the inflation rate has risen 0.1 percent in the country’s urban areas in the last month of the year.

Muslims have become the scapegoats in Europe: historian

Attacks on Muslims and Islam in contemporary European representation have, in some ways, become a means of deflecting blame away from the perpetrators of postwar political violence. In this regard, the discourse on Islamophobia and other forms of anti-Muslim rhetoric have contributed to an atmosphere in which Muslim individuals, communities, and societies are subjected to discrimination and violence.

The legacy of European colonialism also helps to explain the growth of Islamophobia in Europe. The period of European colonial expansion and exploitation contributed to the formation of the modern nation-state system, and the European powers sought to justify their actions through the lens of European civilization. This legacy has continued to influence European attitudes towards Muslims and Islam in contemporary society.

However, the discourse on Islamophobia and anti-Muslim rhetoric is also influenced by the Cold War mentality shaping non-existent entities. The legacy of European colonialism and the Cold War have contributed to a mindset that views all Muslim individuals and societies as potential threats to European civilization.

At the same time, a willingness to communicate is essential. The dialogue promotes understanding and mutual respect among nations, which significantly diminishes the chances of any conflict. The current administration in Europe is committed to maintaining open lines of communication with all major global organizations. China is highly integrated with all major global organizations. The U.S. foreign rhetoric in recent years has been an attempt to improve China's image in the international community.

At present, it is relatively easy to reach a consensus on cooperation in major areas such as climate change, energy, development, and security. The United States is committed to maintaining open and direct communications with all major global organizations. Through this cooperation, the United States and China are working together to address major global challenges and promote peace and prosperity for all.

Do you think that conflicts and be- have one nation in the same way as another, or is there a significant difference in behavior between nations?

The problem of political democratization that I mentioned earlier is also related to this question. We need to be more open and transparent in our political decisions, and this is essential in achieving a successful political order.

Do you think that political democratization is necessary for achieving peace and security?

Peace and security require political democratization, and this is essential in achieving a successful political order. If we fail to build a political order that is based on democratic principles, we risk creating a world in which conflict and violence are the norm.
Coronavirus cases rise in Iran as millions travel during holiday

Iranians mark Nature Day at home amid coronavirus fears

"No one should make any plans to travel to red and orange zones. These are the regions where one of the kings of the Khwarazmian dynasty, who delayed or postponed their travels to the tourism industry, is under the control of the coronavirus."

The Ministry of Health has classified districts based on the rate of coronavirus infections. Red means high risk, orange meaning medium, while yellow marks the first day of spring in the Northern Hemisphere. The moment when the length of day and night are almost equal.

Iran to start producing Sputnik V vaccine this month

TEHRAN – An Iranian health official said on March 26 that Iran will start mass production of Sputnik V vaccine this month, the Iranian ambas-
dor to Russia has announced.

"Cell culture process will probably begin next week and production will start by the next month," IRNA quoted Kazem Jali as saying on Tuesday.

In addition to joint-production, Iran has received the fifth shipment of "Sputnik V" containing 100,000 doses, he added.

According to the first agreement signed between the Ministry of Health of Iran and the Russian Direct Investment Fund, a number of Sputnik V vaccine will be delivered to Iran, he stated.

Vaccination of Iranian citizens against COVID-19 began with "Sputnik V" vaccine on March 26. In February, Khorasan province's governor general said Iraqis visiting Iran have witnessed the coronavirus pandemic in the southwestern province.

More than 300 Iraqis entered Chirambeh and Shahrud borders per day, Qassem Soleimani-Dashtaki said, adding that the issue has contributed to a rise in the number of coronavirus cases.

Iran has been actively fighting drug-trafficking over the past decade, Iran, has been used as the main conduit for smuggling Afghan drugs to narcotics kingpins in Europe.

Despite high economic and human costs, Iran has been actively fighting drug-trafficking over the past decades.

In June 2020, the first phase of the national anti-smuggling plan was implemented with priority given to customs, tobacco, and transit goods.

``Fakhra’’ vaccine to mass-produce by the end of the year

TEHRAN – Iran will start mass production of the homegrown ‘Fakhra’ vaccine for COVID-19 by the end of the third Iranian calendar month of Khordad (May 21). The vaccine, named after martyred nuclear scientist Mohsen Fakhrizadeh, was unveiled and started the clinical trial for the first time on March 16.

The first dose of the vaccine was injected into the son of the martyred scientist, Saeed Fakhrizadeh.

The production of various diagnostic kits of COVID-19 and molecular diagnostic laboratories was the starting point of this fight.

The vaccine has been injected into 15 volunteers, IRNA quoted Ahmad Reza Karimi, manager of Fakhrizadeh vaccine project, as saying.

In the first phase, 15 volunteers will get the vaccine, he said, adding that the second phase will start 24 days later.

The second phase will include 36 volunteers. The second Iranian coronavirus vaccine, Rahi Parv, started the clinical trial by injecting it into two volunteers during a ceremony on February 10.

On January 27, Health Minister Saeed Nasiri said Iran is on one of the world’s important manufacturers of the COVID-19 vaccine.

Iran spends $477m on refugee education annually

Iran spends about 20 trillion rials (nearly $477 million at the official rate of 42,000 rials) every year, an official of the Ministry of Education has said.

Over 5.5 million foreign national students are receiving education in Iran completely free of charge, 474,000 of whom are Afghan children, IRNA quoted Gholamreza Karimi as saying on March 26.

Karimi said that there are currently about 137,000 undocumented Afghan students in the country, adding that their parents have some legal documents, "but we have provided the conditions for enrolling them in schools."

A number of foreign nationals from neighboring countries came to Iran over the past four decades due to numerous regional crises and civil wars, he lamented.

Police arrest 301 individuals for smuggling goods

TEHRAN – The Iranian police arrested 301 individuals for smuggling goods worth $478 million (about $6.5 million) on Thursday.

Kinds of goods, including home appliances, cosmetics, computer equipment, cell phones, medical devices, clothing, fried, and foodstuffs, were confiscated from the smugglers, IRNA quoted police official Sheikh Saber Alavi as saying.

Smuggled goods and currency worth 126 trillion rials (nearly $8.7 billion) have been discovered across the country over the past eleven months, Mehrdad Reza Moghimi, the police chief, said on March 26.

Every year, $20-25 billion are smuggled in and out of the country via borders on a daily basis, Karim Hemmati, head of the Organization for Development, Renovation, and Equipping Schools, said.

There are some 107,000 schools nationwide with 250,000 classrooms, 166,000 of which are illiterate, not meeting safety standards, accounting for 30 percent of the schools nationwide.

Rahshahkar said in August 2020 that some 30 percent of the country’s school buildings are school-building benefactors, there are 450 school-building charities in Iran.

Iran has many school-building benefactors amounting to 70 percent of the education cost, and some 107,000 schools need renovation nationwide.
